

⚠ SAFETY WARNINGS

- Only qualified electrician is allowed to carry out the installation of this product.
- Avoid direct contact with electrical power.
- Respect all regulations in effect for preventing accidents.
- All units are required to be disconnected from the main electricity before any operation of maintenance.
- Never handle with wet hands and feet.
- Be sure power is off before installing or removing LED plate. Allow LED plate to cool before replacing.
- This product should be installed according to your local electrical installation ordinances and regulations.

Product Parameter Table

Model No.	Voltage	Watt	Frequency	Remark
E-Fusion	AC 12V	3W	50Hz	Cool White, Warm White, Single Blue, RGB

Note for installation

- 1) Select the light color according to your personal preference (cool white, warm white, single blue, RGB)
- 2) E-Fusion is suitable for ground landscape such as yard, square etc. You can select the type of the light depending on your needs.
- 3) The length of the light cable is 0.5 meter. If wires are connected under water, you must use waterproof tape or other method to seal the connection point.
- 4) (Prior to installing the light fixture, the whole circuit system diagram should be finished by professional designer.)
- 5) The circuit system must comply with local laws and regulations and must be carried out by qualified electricians.
- 6) Make sure the voltage is 12V.

Installation of the light

- 1) Embed the light encasing in the ground first, make sure the surface of the face plate is flush with ground surface (See Figure 1).
- 2) Pull the cable through the encasing. Leave extra cable in the encasing for servicing. (See Figure 1)
- 3) Install the light into the encasing, connect the cable and secure the face plate in place. (See Figure 1)
